Equi-lizer with standard leveller

A well-maintained arena takes a lot of (manual) work. Our Equi-lizer makes the maintenance a lot easier. With its small dimensions, this arena leveller can fit through a 1.25m gap and is very simple to operate. As a result, this harrow is ideal for tracks in horse-walkers and lungeing circles. The front of the Equi-lizer with FLC-leveller is equipped with an extra weight to prevent the machine from tilting.

Standard equipment

Horseshoe shovel - Rake - Leveller
Hydraulic implement control
Light steering
Front wheel in fork suspension
Wheel rims with nut mounting
Quick coupling for Rake - Drag
Tools

Rake with thin pins
Rake with curved pins
Horseshoe slider
Levelling mat
Sleep
Rake and leveler
