Electric feed trolley

The electric feed trolley is the solution for stables where long distances have to be covered. The possibility to drive it yourself offers tremendous convenience. This electric feed trolley can even drive over hilly terrain with ease.

Transporting multiple feed types
The division into 3 compartments allows you to carry several types of feed. This allows you to feed all horses in one round with, for example, pellets, oats and muesli.

Locked away from pests
The electric feed trolley is equipped with 2 lids. This keeps everything tightly closed and prevents pests from getting to your feed.

Eigenschappen

Specificaties

Dimensions	91 cm wide, 86 cm high, 130 cm long, total length 170 cm
Weight	110 kg
Lids	2
Feed compartments	3
Batteries	2 pieces - 12V gel batteries
Duration of use	4-5 hours
Drive	950W - 24V electric motor
Payload	400L
Pneumatic tyres	4
Noise level	Very quiet
Operation	Easy
