Safety Wall

The Safety Wall is a plastic arena wall, safety and longevity are the main characteristics of this very innovative product. The fitting of a Safety Wall makes riding in the indoor arena safer and ensures less maintenance. In 2009 the Safety Wall was nominated for the Equitana innovation award.

The Safety Wall comes in two versions. The difference between the versions is the colour options:

Safety Wall Pro: any RAL colour
Safety Wall Budget: black
Safety Wall door system
The Safety Wall door hinge is an excellent addition to the Safety Wall. The unique hinge ensures that the access door to the riding arena can be easily opened without the door falling back.

Eigenschappen

Specificaties
