Multi-Mover

With this Multi-Mover electric tow tractor, you can easily move and manoeuvre your trailer and trailer over flat terrain. Thanks to the special tyres and drive system, the Multi-Mover can be used on both hard and soft ground. Ideal if you want to move your trailer. This makes it easier and faster than if you did it with your car.

Models
- Multi-Mover M (blue) - up to 1800 kg
- Multi-Mover L (yellow) - up to 2500 kg

Traction
The Multi-Mover is capable of moving loads of up to 1800 kg (blue variant) or 2500 kg (yellow variant). To put it in perspective: a 2-horse trailer, when empty, weighs between 650 kg and 1020 kg. So you no longer have to push, shove or pull your trailer out of place yourself.

Battery
The Multi-Mover's battery lasts a whole working day. With the battery charger supplied, the Multi-Mover is ready for multi-purpose use after just 5 hours.

Eigenschappen

Specificaties

Multi-Mover M (blue)	
Traction	Max. 1800 kg
Dimensions	165 x 80 x 95 cm
Weight	85 kg
Colour	Blue
Engine	24V - 500W
Battery	12V - 26Ah (2 batteries)
Battery charger	24V - 5A trickle charger
Tyres	Pneumatic tyres, 6-inch rims, normal block tread
Brake	Motor brake + electric magnetic brake

Maximum drawbar load	250 kg
Gears	0 - 5 km/h forward, 0 - 5 km/h reverse

Multi-Mover L (yellow)	
Traction	Max. 2500 kg
Dimensions	120 x 80 x 95 cm
Weight	180 kg
Colour	Yellow
Engine	24V - 800W
Battery	12V - 50Ah (2 batteries)
Battery charger	24V - 8A trickle charger
Tyres	Pneumatic tyres, 8 Inch rims, normal block tread
Brake	Motor brake + electric magnetic brake
Maximum drawbar load	300 kg
Gears	0 - 5 km/h forward, 0 - 5 km/h reverse

Van stal tot rijbaan, betrouwbare oplossingen voor elke paardenhouder
