Wheelbarrow - 600L

Transporting large volume is no problem with this large wheelbarrow with a whopping 600 litre capacity. The bin is made of polyethylene and the frame is galvanised. As a result, this wheelbarrow can definitely take a beating.

The comfort of two wheels
Because the wheelbarrow has two wheels, it cannot tip over. So whether it is empty or completely full, you can even steer the wheelbarrow with one hand. Handy if you need to take a pitchfork or broom to the next stable, for example.

Strong wheels
As this wheelbarrow has 600 litre capacity, it is fitted with strong 4-ply pneumatic tyres. They feature steel rims with ball bearings. This makes the wheelbarrow very suitable for daily use, both indoors and outdoors.
