Rug rack with drying system

Drying horse rugs has never been easier. Blankets can be attached very easily to our patented drying rack. Its perfect shape and heating capacity will dry your rugs within a few hours. This drying method extends the life of the blankets, prevents mould and unpleasant odours.

User-friendly
The rack excels in user-friendliness, as you can pull the rack towards you. You can then very easily hang a blanket over the rack. By placing the drying rack in an upright position, you can add items such as blankets, tendon and fetlock boots and they will be dry within minutes.

Power consumption
The drying system consumes 600 W per rack and switches off automatically after three hours. So you never consume unnecessary power.

Eigenschappen

Specificaties

	Single drying rack	Four-fold drying rack
Voltage	AC 230 C 50/60 Hz	AC 230 C 50/60 Hz
Power	600 W	2400 W
Weight	20 kg	80 kg
Dimensions standing (LxWxH)	97 x 30 x 226 cm	97 x 87.5 x 226 cm
Dimensions tilted (LxWxH)	206 x 30 x 97 cm	206 x 87.5 x 97 cm
Material	STAINLESS STEEL	RVC
Protection class of switchgear	IP21	IP21
Safety class	Class 1	Class 1
Grounding	Standard earthing relay, incl earthing point	Standard earthing relay, incl earthing point
Overheating protection	Yes, switches off automatically after 3 hours	Yes, switches off automatically after 3 hours
Operating temperature	- 25 C to +80 C	- 25 C to +80 C
Ambient temperature	- 25 C to +50 C	- 25 C to +50 C
Transport/storage temperature	- 25 C to +50 C	- 25 C to +50 C
Humidity	Max. 80 C	Max. 80 C
Maximum discharge pressure	0.5 bar	0.5 bar
Heating fluid	Bio-CV-Fluid	Bio-CV-Fluid
Liquid content per rack	2.5 litres	2.5 litres

CE = In accordance with EC directives and standards

Van stal tot rijbaan, betrouwbare oplossingen voor elke paardenhouder
