Purple Packer

The Purple Packer is an add-on component for the mini-loader or forklift truck to muck out stables. This manure gripper is very quick and easy to attach and remove, meaning the machine can still be used for other things. It makes mucking out stables fun! A stable of approx. 12m2 is clean in just one operation. The machine is suitable for stable openings from 110cm and a stable aisle of 240cm.

It is suitable for stable doors from 110cm and a stable corridor of 240cm.

The benefits

No manual work
No manure in the stable corridor
Low maintenance
Time saved

Eigenschappen

Specificaties

Content	Can empty an average one-week box in one go
