Jump trolley with hood

If you want to store your jumps outdoors, this jump trolley with hood is a real godsend. Made of high-quality tarpaulin, it protects your beams and uprights from all weather conditions.

Capacity
This jump trolley with hood is ideal for jumping stables, as it has a capacity of no less than 120 jump poles. With this jump trolley, you can build an entire course in one round through your arena.

Wide wheels/wheelbase
The obstacle beam cart has a size of 350 x 150 cm and is equipped with a sturdy turntable. This makes the trolley extremely stable. The wide pneumatic tyres contribute to this and make it easy to manoeuvre.

Related items
Within this product group, we also offer a obstacle car and beam trolley to.
