Arena Leveller FLC AHK-S

Leveller with a working width of 1.25m and 1.45m. Designed for small towing vehicles such as sit-on mowers and ATVs. Thanks to a height-adjustable tow hitch, the unit can be easily adjusted to fit the towing vehicle. The tines, in three rows, and the chain roller with pins result in an optimal result. The tine depth is adjustable from 1-6 cm.

Eigenschappen
