Arena leveller FLC 2in1

The Arena leveller 2in1 is a leveller and a towing vehicle (diesel-powered) in one. Depending on the customer's requirements, it is fitted with a two-part chain-link roller or with a Farmflex . rubber roller for professionally levelling fibre / geopat surfaces and sand surfaces.

At the press of a button the rollers, teeth and leveller are brought into the working position.

Even extreme conditions, such as bad weather and mud, are no problem for this tough machine as it is fitted with a weather-proof cabin and sprung driver seat, four-wheel-drive with three driven axles and power-assisted steering.

Eigenschappen

Specificaties
