Eigenschappen

Straw trolley Exclusive

This straw trolley offers space for large bales that are both square and round. As the large wheels are placed in the middle of the straw wagon, it is very manoeuvrable and easy to push.

Your benefits:

Because of the round, no edges and corners; prevents injuries to humans and animals.
Ball-bearing steel rims with gote pneumatic tyres make pushing easier.
Ball-bearing swivel castors make the trolley more manoeuvrable.
Fully powder-coated in green.
Load capacity up to 1,000 kg.
Optional: turntable for round bales, removable; easier unwinding. Our Strowagen Exclusive is also available with battery drive.

Specificaties

Cargo floor dimensions	250x100x45cm or 200x100x45cm
Carrying capacity	Max. 1,000 kg
Operation	Manual

Van stal tot rijbaan, betrouwbare oplossingen voor elke paardenhouder
