Stallvärme Premium Solarium

Advanced infrared therapy for optimal muscle health

The Stallvärme FIR Therapy Solarium Premium+ offers an innovative solution for improving the muscle health and well-being of horses. Using far-infrared radiation (FIR), heat penetrates up to 4 cm deep into muscle tissue, resulting in improved blood circulation, reduced inflammation and accelerated recovery after exercise. This makes the solarium ideal for both warm-up and cool-down, contributing to improved horse balance and performance.

Its quiet operation and energy-efficient design ensure a comfortable and stress-free experience for the horse. The solarium is easy to clean and can be customised to the specific needs of the stable, with options for personalisation in colour and name. With its efficient drying and therapeutic benefits, the Stallvärme FIR Therapy Solarium Premium+ is a valuable addition to any professional stable.

Eigenschappen

Specificaties

Technical specifications	Stallvärme
Colour	Anthracite grey metallic
Housing	Aluminium
Fixing material	Included
Suspension	Included
Number of LED lamps	2 LED strips per module , 6 total
Supplied as standard	Control box including operating elements
Time	Adjustable via timer on control box
Length	187cm
Width	178cm 210cm
Height	60cm
Thickness	5cm

IP value	IP 54
Hallmark	CE
Connection	CEE plug 16A 5-pole / 1 earth / 1 neutral / 3 phase
Connection voltage	400V 50Hz internally 3x 230V
Power cord	CEE plug 16A 5-pole 2 metres
Fuse with	C 16A
Power consumption	4500 watts
Weight	75 Kg
Transport dimensions	L=200cm W=90cm H=60 cm
Transport weight	120 Kg

Van stal tot rijbaan, betrouwbare oplossingen voor elke paardenhouder
