BRUNO Sweeper

Electric large-area sweeper

The electric sweeper designed for cleaning large areas for riding stables and barns. Thanks to its robust design and high sweeping capacity, BRUNO is ideally suited for professional use in demanding environments. The machine is easy to operate with a steering wheel and one-click start and is fully electric, ensuring quiet operation and low running costs.

With a working width of as much as 2,100 mm and cleaning efficiency of up to 18,500 m² per hour, BRUNO delivers impressive performance.

Eigenschappen

Specificaties
